# Silverfish Control

*Lepisma saccharina*

**A major nuisance wherever they are prevalent**

**Silverfish contaminate food, damage property, and trigger allergies.**

**They are incredibly fast and difficult to control. When disturbed, they quickly dart out and find a hiding place. The best way is to trap them and eliminate them.**

## **With Pertinent, You Have a “Silver Bullet” to Control Silverfish**

### **Why Choose Silver-Bullet?**

- Insects enter and feed on a specially formulated matrix containing eugenol
- Silverfish are killed without any sprays or liquids
- 10x more effective at killing silverfish than the leading product containing boric acid.

### **Directions for Use**

- Open the pouch containing 12 cards.
- Do not open or deform the cards
- Place them in areas of silverfish infestation
- Control will be seen in 1-2 weeks
